Warner bros spited on MK X, PC players and PC community. The twin of quake 3 arena.

The another best arena shooter ever for mobile i play it countless hour!!!! in IOS in Botmatchs with offer infinite replay value like well-known arena shooter like Quake 3 arena Unreal tournament.It pc version with well optimized graphic and better control.Becuae both campaign and botmatchs it avialable offline too!!!! so this enjoyed anywhere anytime as much as i want as long as battery is charged(Moblie version or play in laptop) Caution!!! don't play while charging it may explode your mobile phone or tablet :)

SomeSuggestion:

1.Add more weapon the most wish is railgun

2.Adjustable bots difficultly and frag limit time limit

3.Replayable mission with adjustable difficultly (If you want to replay you must delete your slot and start form begining is)

Who said this game is boring they wrong i play in moblie for 1 year already until now

\*\*\*\*Don't ever ask me Neon shadow or quake 3 arena is better i will be mad cause is really tough question ever calculus for enginner is much easier than this question\*\*\*\*. Awesome tower defense game. Great polish and mechanics.. Fun, but not as fun as some of the other Spiderweb games. Geneforge 1 & 2 had choices that impacted things, the game wasn't as linear as this game seems to be. If you're new to these RPGs, I'd recommend getting Geneforge 1 (especially if you like a good, non-linear story!). I couldn't squeeze a single glass of "fun" out of this game. It's extremely not fun to have random weather and random events randomly screw up everything from Jan-Dec. I hate to give a bad review for a new title but if this cost \$.01 I would still request a refund.. If you love Risk you will probably love Colonial Conquest. Rather easy but for leisure great. No stress gaming.. Words.....

....I should have sent a poet.

Thank you for this game. It needs polishing but is worth the price point.

+ It doesn't feel as overwhelmingly fast as it appears in video. It feels right.

- Some lag but thats to be expected.

- Right now the party system seems bugged but its still easy enough to get in a game with friends.

+ Character progression feels good.

- Limited customization

+ Combo System feels good

+++ The feels from having just bested 3 incoming opponents in the blink of an eye because you are that good.

Overall: 8/10

If you fix the party/friends system and polish up the lag a little with some regional servers ill change to a 10/10.

Everything else is just bonus ( more customization, new moves, new weopons )

While I absolutely love these type of games, I can not recommend it in it's current state. Please note that this is my personal opinion.

What did the Skate, SSX, and THPS games have in common? A few things. To start off, a control scheme which is intuitive, combined with at least semi-fluent animations and the possibility to build up real momentum and go from there. On a roll does, for me at least, not succeed in any of those earlier mentioned points at the moment. It is in early access though, so my review might already be outdated once it fully releases. Earlier mentioned titles, along with many other sports titles, also tend to bring up this feeling of "let's just try it one last time". I did not have that feeling with this game which is a dealbreaker for me. I'd also like to see some form of a soundtrack being implemented later.

On the more positive side, I must admit that the game looks absolutely beautiful. I would've liked 60fps on my rig on max (i7-7700hq/gtx1070/16gb ram) settings but the game needs some work in order to achieve that.

This could be a great game once it fully releases, and I will continue to follow it. But if someone came up to me and asked me "Hey, do you recommend On a roll?", my answer would be "Not right now.". Cheap fun :). I will recommend it only because I got it for free with the Two Worlds II pack. If I paid for it I would not recommend it unless it was like .49 cents. Simple tower defense. Like maybe a half-hour worth of fun.. WOW! This game is amazing!

Think Larry the Lounge Lizard meets Hotline Miami and you get the picture.

The graphics are years ahead of their time and the gameplay... let's just say I shed more than a few tears, some of happiness, some of frustration and some in knowing you will never ever play this game for the first time ever again.

If I live to be a hundred and ten truly this game and ending world hunger will be mankind's greatest achievements.

Put a box of tissues next to your keyboard because you will be bleeding out of your eye sockets and possibly other orifices.

**IF YOU EVER PLAN TO ENJOY ANOTHER GAME IN YOUR LIFETIME DON'T BUY THIS BECAUSE ALL OTHERS WILL PALE IN COMPARISON!**

**YOU HAVE BEEN WARNED!.** 20 minutes into the game and you've already made me kill 2 of my own daughters, against my own will.

♥♥♥♥ this, for real. I know it's a gore game but can't you at least have another choice to preserve the homunculi and grow them as your kin, instead of slaughtering the innocent creatures that you are the father figure to?

The linearity completely kills the game for me. Is it linear by choice or because it would take too much time to set up another route?

I would rather murder people from the city instead of the homunculi to feed the soul.

I can't recommend this game to anyone, unless for whatever reason you have the urge to violently and without remorse, kill a daughter of yours after she sends you a letter telling how she loves and trusts you.. meant to be online its dead. I like it! I just wanted to give this game a good review because it deserves one.
