When you sit there and wonder how the DLC could possibly get more predatory than they were in SK-PBS then you find this one.. Yes the pay wall sucks but its Miyabi \ud83d\udef0\ud83d\ude1b\ud83d\udef0
So far she is my best character, controls so well.
If there was or will be PvP I think she would be a little OP. Putting the best girl behind a paywall.
